

Verein für Schweizer Sennenhunde in Österreich VSSÖ

VERIFICATION OF THE DEATH OR LIVING OF A SWISS MOUNTAIN DOG

In order to breed dogs with a high life expectancy it is necessary to have a lot of health information- for example death and life attestations- of lot of Swiss Mountain Dogs. This information is saved in our database (Dogbase) and is available for the breeders in Club for Swiss Mountain Dogs in Austria. We would be very grateful if you would make health information (particularly the cause of death in the case a dog has died) available to the Club for Swiss Mountain Dogs in Austria. However, we can only enter information into Dogbase if it is official and this means it must be verified or provided by a National Club or a qualified veterinarian. This is the same whether a dog is still alive or has died. In the case of the dog below, we ask you to please complete this form and send it via e-mail to buerozucht@vssoe.at or zucht@vssoe.at.

We require both a signature and a stamp from either the club or the veterinarian providing the information.
In case of a dog, which is alive the chip number or tattoo must be controlled to confirm the identity of the dog

Details of the dog:

Breed: APPS BS ENTS GSS

Name of the Dog:

Studbook Registration Nr.:

Chip Nr.:

Date of Birth:

Owner:

Street:

Postal Code:

City or Town::

Please state if you verifying the living or the death of a Swiss Mountain Dog

Living

* Death

for Greater Swiss Mountain Dogs: free from epileptical seizures

not free from epileptical seizures

Date

Signature of the owner

Information Required

* If diseased

Cause of Death (use separate sheet if you need more space):

Date of Death:

Are there any pathology reports to back it up? yes

no

Was this information provided by a:

National Club

Veterinarian
